(Last opening on dial)

BUSINESS OFFICE—Applications for service,
information regarding bills, etc.:

2831 Highway Avenue, Highland Ask for Business Office

INFORMATION—For numbers not in Directory Ask for "Information"

REPAIR SERVICE—To report a telephone "Out-of-order" Ask for "Repair Service"

For **ASSISTANCE** in reaching a number Explain Difficulty

You May Telephone Telegrams

You may telephone telegrams, cablegrams or radiograms to the Western Union Telegraph Company.

Charges for telegrams, cablegrams or radiograms placed by telephone will appear on your monthly telephone bill by arrangement with Western Union. On messages telephoned from public coin box telephones, you will be requested to deposit the telegraph charges in the coin box.

About Your Telephone Number

Occasionally, in the past, it has been necessary to change the telephone numbers of some of our subscribers. It may, likewise, be necessary to change some numbers in the future.

We're sorry we can't say to you, "We'll never have to change your telephone number." As a matter of fact, we don't like to change them and won't do it unless it is absolutely necessary.

USE THIS DIRECTORY FIRST

Many calls to "Information" are unnecessary since they are for numbers which are listed in the directory. Please don't ask our Information operators to look up numbers unless you are sure they are not listed in this directory. You can get your call through faster by referring to this directory and calling by number. Your cooperation is appreciated.

ILLINOIS BELL TELEPHONE COMPANY

K. E. Linnemann, Manager

2831 Highway Avenue, Highland

LAKE COUNTY PUBLIC LIBRARY

CALLING AN

OUT-OF-TOWN PHONE?

Here's How To Save Time and Money

Some Out-of-town calls are dialed direct by first dialing a code number and then the telephone number. Other calls are handled by the operator. By checking the list on the next page, you can be sure of placing your call correctly. And you'll find some time and money-saving tips on placing long distance calls on this page.

3 Ways to Save Money on Long Distance Calls

1. **CALL STATION-TO-STATION** if you are willing to talk to anyone who answers. Charges begin when anyone answers at the called telephone or private switchboard. Station-to-station rates are lower than person-to-person rates. But . . .

2. **CALL PERSON-TO-PERSON** if you want to talk to a particular person. Just tell the operator you wish to talk to a particular person. Charges begin when the called person answers.

(On a call from one point to another in Illinois, a "Report Charge" is made if the particular person you want cannot be reached and you ask the operator to cancel the call.)

3. **PLACE YOUR CALL AFTER 6:00 P.M. ON WEEK DAYS** or any time Sundays; you'll make a substantial saving. Rates are also reduced on Thanksgiving, Christmas and New Year's.

On calls within Indiana the reduced rates apply to "station" calls where the initial period rate is 40c or over and to "person" calls where the initial period rate is 60c or over. Reduced rates on calls to telephones outside of Indiana apply to "station" calls where the initial period rate is 40c or over and to "person" calls where the initial period rate is 55c or over.

FIRST

SECOND

THEN

Tips For Saving Time

You'll get faster service if you give the details of your call to the operator like this:

Give her the name of the town and state you are calling. Then the telephone number, if you know it. **EXAMPLE:** "Detroit, Michigan—WO odward 5-3456"

If it's a person-to-person call, also give her the name of the person you want.

If you don't know the telephone number, give the name and address and tell the operator whether it's a station-to-station or person-to-person call.

Give your telephone number when the operator asks for it—and hold the line unless the operator says there will be a delay. Most long distance calls go through while you wait.

SPECIAL CALLS YOU CAN MAKE

OVERSEAS CALLS—You may talk by telephone to any one of more than 90 countries, territories and dominions throughout the world. Dial "Operator" and ask for "Long Distance."

SHIP-TO-SHORE CALLS—Most ships may be reached by telephone. Dial "Operator" and ask for "Long Distance".

COLLECT CALLS—If you place a call "Collect" and it is accepted on a "Collect" basis by the person you are calling, it is paid for by him instead of you.

CALLS TO VEHICLES—You can now telephone to or from properly equipped vehicles operating within mobile service areas.

Calls can be made to or from any telephone reached by the Bell System.

To call a mobile-equipped vehicle, dial "Operator," and ask for "Long Distance" then tell her you wish to place a mobile telephone call, and give her the number of the vehicle you are calling.

Films, Demonstrations and Talks

Interesting films, demonstrations and talks about telephone service are available to public groups without charge.

These portray the story of modern communications. They explain the scientific magic of a telephone call, whether it be across the street or around the world. They are entertaining as well as informative. Pamphlets listing current films are available at the Telephone Business Office.

For further information, call your Business Office.

Attractive Personal Directories

A copy of a personal telephone directory is yours for the asking. The directory is handy for listing your frequently called numbers—your friends', business associates', numbers for places where you shop, and so on. For copies of the directory, just call your Service Representative at the Telephone Business Office.

This small, personal directory will save you time in calling. Be sure, however, to keep your personal list of numbers up-to-date by checking it with each new directory issue.

How to Use Your DIAL TELEPHONE

TO DIAL A CALL

1. Look in the telephone directory for the correct number.
2. Listen for the "dial tone." This steady humming sound tells you that the dial equipment is ready for your call. (From a coin box telephone, see bottom of page.)
3. To Dial any figure, place your finger firmly in the opening for the particular figure. Pull the dial around until your finger strikes the metal finger stop. Then, release the dial and allow it to return to rest without interference.

For information on out-of-town calls, see pages 2-4.

If You Dial in Error

In case your finger slips while dialing

Or if you've dialed a wrong digit—

Replace the receiver . . .

Wait a few seconds . . .

Lift the receiver to your ear and when you hear the hum of "dial tone",

Dial the complete number.

When You Can't See Dial

If for any reason you cannot see the dial, locate the first opening just below the finger stop, pull the dial all the way around in the usual way, and let it return. Your operator will answer.

After You've Dialed

Most people try to answer the telephone immediately . . . but it can't always be done. Wait about a minute, before you decide "nobody's home." This way you can often avoid making a second call.

For Your Protection

For your protection, telephone employees who visit the public, carry identification cards with their names and photographs. If you have the slightest doubt about anyone who calls "from the Telephone Company," ask to see his credentials. Telephone people will be glad to show you their cards.

Cedar Lake, Ind.

Telephone Signals You Should Know

THE "RINGING SIGNAL" *

Within a few seconds after you complete your dialing, if the line is not busy, you will hear the "ringing signal" which tells you that the called telephone is being rung. This is an interrupted "burring" sound.

THE "BUSY SIGNAL" *

By signaling you with a "buzz-buzz-buzz" sound, the dial equipment will tell you (shortly after you finish dialing a number) when the telephone you are calling is in use. When you hear this "busy signal," be sure to replace the receiver before trying your call again—or placing another call.

"BEEP" TONE TELLS WHEN CONVERSATION IS BEING RECORDED

If you hear a brief, high, almost musical note on your telephone line while you are talking—a sort of gentle "beep" repeated every 15 seconds or so—you will know that the person to whom you are talking has a recording machine which is making a record of your conversation.

The signal is produced automatically by the device used to connect the recorder to the telephone line, and it is provided by the telephone company for your protection.

If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. The "beep" signal stops when the recorder is disconnected.

Use of a recorder without this signal is unlawful.

* Your operator will be glad to demonstrate "ringing" and "busy" signals. Just dial "Operator" and ask the operator for a demonstration of these signals.

FROM COIN BOX DIAL PHONES

To call a local number

- 1 Remove the receiver from the hook, but do not deposit money.
- 2 Listen for the dial tone.
- 3 Dial the number wanted.
- 4 When the called number answers, you will hear the dial tone again, then PROMPTLY deposit one dime or two nickels (One nickel won't work).

FOR CALLS BETWEEN CEDAR LAKE AND LOWELL

Proceed as above for making local calls, except dial "8" followed by the desired number.

TO CALL CROWN POINT AND OTHER OUT-OF-TOWN PLACES (except in the preceding)

- 1 Remove the receiver from the hook, but do not deposit money.
- 2 Listen for the dial tone.
- 3 Dial "Operator." When the operator answers, give the call to her; deposit money when the operator asks for it.

Just as much as the people next door or across the street, the folks on your party line telephone are neighbors. The best party-line service for *all* depends on courteous, cooperative use of the line by *all*. Here's how you can do your part.

How to be a GOOD TELEPHONE NEIGHBOR in 6 Easy Lessons

Answer Promptly

This will insure receiving all calls intended for you and will prevent possible annoyance to another family on the line.

Take a Breather

A "breathing spell" between calls gives your neighbor a chance at the line. It also permits incoming calls to come through.

Listen Before Using

Make certain that the line is free before attempting to call a number. (In the case of dial service, listen for the Dial Tone. If you hear successive clicks, it means that someone else is dialing a number. Wait until they stop; then explain to the party that you have interfered with his dialing. And hang up.)

Replace Receiver Properly

If you don't, the line is just as "busy" as if someone were talking on it. Incoming calls are blocked; and eventually no one can reach the operator. And when you find the line already in use, the neighborly way is to hang up gently.

Tell the Children How

Teach 'em young how to use the telephone—to be considerate of others on the party line . . . not to talk unnecessarily long.

Give Way in Emergencies

If your neighbor says the line is needed for an emergency, cut the call short and give the right-of-way. You might otherwise always regret it.

To call ANOTHER PARTY on your line

If you do not know who else is on your line, "Repair Service" will be glad to tell you.

Just dial "Operator" and ask for "Repair Service."

Party-line customers when calling another party on their line dial a special code number to ring the desired telephone—not the telephone number as listed in the directory for that party.

From Cedar Lake Numbers Beginning with "7" To call another party on your line, simply dial the code "912."

From All Other Telephones The code you dial to call another party on your line consists of three figures:

The first figure's always "9". The second is the last figure of your number. The third is the last figure of the desired party's number.

Example: Suppose your number is "5993" and you are calling "5994". The code number in this case is "934".

After Dialing The Code Number

- As soon as you've dialed the code number, hang up your receiver. Your bell will ring at intervals indicating that the other telephone is ringing.

- When the ringing stops, you will know the other party has answered.

- Remove your receiver and proceed with conversation.

- If your party does not answer within a reasonable period, remove your receiver momentarily in order to clear the line.

THIS BOOK IS RENEWABLE BY PHONE OR IN PERSON IF THERE IS NO RESERVE WAITING OR FINE DUE.

LCP #0390

APPLICATIONS

Applications for original establishment of service must be made on the Telephone Company's standard application forms. Requests from subscribers for additional service, equipment, etc., may be made orally or in writing, and upon approval, or installation of the service, become a part of the original application. An applicant for service must pay all previous indebtedness to the Company for telephone service before service will be furnished.

ESTABLISHMENT OF CREDIT

In order to insure the payment of all charges due for its service, the Telephone Company may require any subscriber to establish his credit in a manner prescribed by the tariff.

OWNERSHIP AND USE OF THE EQUIPMENT

Equipment, instruments and lines on subscriber's premises, furnished by the Telephone Company, shall be and remain the property of the Telephone Company, whose agents and employees have the right to enter said premises at any reasonable hour for the purpose of installing, inspecting, or repairing the instruments and lines or for the purpose of making collections from coin boxes and, upon termination of the service, for the purpose of removing such instruments and lines. Such equipment is not to be used for performing any part of the work of transmitting, delivering or collecting any telephone message where any toll or consideration has been or is to be paid any party other than the Telephone Company, without the written consent of the Telephone Company.

Subscribers must not use or permit to be used any electrical or mechanical apparatus or device in connection with the equipment or facilities furnished by the Telephone Company without the written consent of the Telephone Company, or permit the attachment of any advertising devices, except upon the approval of the Telephone Company. In case any instrument, apparatus, or device of any kind other than that furnished or approved by the Telephone Company is attached to or connected with any part of the Telephone Company's property, the Telephone Company shall have the right to remove such instruments, apparatus, or devices or to suspend the service so long as such instruments, apparatus, or devices are so attached or connected, or to terminate the service.

INTERRUPTIONS TO SERVICE

If service is interrupted for more than 24 hours, for causes other than the negligence or willful act of the subscriber, credit will be allowed when requested by subscriber, at the minimum rate for the telephone facilities and class of service affected by the interruption, for such time as the interruption continues. No other liability shall attach to the Company in consideration of such service interruption.

TELEPHONE NUMBERS

The subscriber has no property right in the telephone number or any right to continuance of service

through any particular central office. The Telephone Company may change the telephone number or the central office designation, or both, of a subscriber whenever it deems it desirable in the conduct of its business so to do.

TELEPHONE DIRECTORIES

Directories regularly furnished to subscribers are the property of the Telephone Company, are loaned to subscribers only as an aid to the use of the telephone service, and are to be returned to the Telephone Company upon request or when new directories are issued. The Telephone Company shall have the right to make a charge for directories issued in replacement of directories lost, destroyed, defaced, or mutilated while in possession of subscriber.

No liability arising from errors or omissions in the making up or printing of its directories shall attach to the company except in the case of charge listings, in connection with which its liability shall be limited to a refund at the monthly rate for each listing for the time an error or omission continues after reasonable notice in writing to the Company.

USE OF SERVICE

Subscriber telephone service is furnished only for use by the subscriber, his family, employees, or business associates, or persons residing in the subscriber's household, except as the use of the service may be extended to joint users or to persons temporarily subleasing a subscriber's residential premises. The Telephone Company has the right to refuse to install subscriber service or to permit such service to remain on premises of a public or semi-public character when the instrument is so located that the public in general or patrons of the subscriber may make use of the service.

PAYMENT FOR SERVICE

The subscriber is required to pay, in accordance with the Telephone Company's established tariffs, collection and billing practices, all charges for exchange service and equipment, and for all toll messages or service rendered to his station, including all toll messages on which the charges have been reversed and accepted by any party at his station. All bills are due when rendered and are payable at the Telephone Company's business offices.

BILLS ARE RENDERED ONCE A MONTH

and are payable at the office of the Company. If not paid on or before the fifteenth day after issuance of the bill, written notice calling attention to the fact will be sent to the subscriber; after which action the service may be discontinued, without further notice, if a settlement of the account is not made by the seventh day.

When settlement of the bill is made before telephone instruments have been removed from the premises, service will be restored upon payment of a restoral service charge.

When settlement of the bill is not made until telephone instruments have been removed from the premises the regular service connection charge applies.
